

Pre-Interview Question

Question: Given the following user story and website URL, create a test plan and five test cases for the website form at the given URL. Also include information for two bugs you find. Reply via email with your document(s) or a link to a GitHub URL **by 5:00 p.m. Friday, September 21.**

User story:

As a Student Central adviser I need a student ticket submission form so I can better help students.

Acceptance criteria:

- A student can successfully submit a question or issue via a form on our website.
- The form requires student information including their name, student ID, and valid email address.
- The form requires ticket information including a subject, description, and service area.
